

Lenzip Manufacturing Corp.

Superior products and unparalleled service for 72 years

Lenzip is a proud American producer of high quality, commercial and industrial zippers, and is the second oldest zipper manufacturer in the United States. From our headquarters and factory in suburban Chicago, we serve customers in more than 40 varied industries, in 38 countries and on 5 different continents. Our complete product line consists of nearly 1,000 different zipper styles, manufactured from metal, molded plastic or coil zipper materials. From one-time use disposable zippers to ultra heavy-duty special use applications, Lenzip can custom make just about any zipper you need. We are privileged to serve large companies and small, nationally known firms and worldwide organizations, government agencies, aerospace, marine, apparel and automotive companies, requiring just a few or thousands of custom-made zippers each month.

PRODUCTS: BIGZIP® #15 Molded Zipper, Raindefyer® # 10 Coil Zippers, Water Resistant Zippers, Fire Resistant Zippers, Heat Weldable Zippers, Lenzip No. 12 UV Marine Grade Zipper.
