

Stimpson

High-performance marine fastening solutions

Stimpson is the nation's leading manufacturer and supplier of grommets, washers, eyelets, snap sets, hole plugs and attaching machinery for the marine industry. With the most extensive inventory of marine-grade fasteners in the industry, parts are "ready to ship," making ordering easy, fast and accurate with one of our experienced marine fastening specialists over the phone, via fax or on the official Stimpson webstore.

Engineered and designed to withstand harsh marine environments, Stimpson's brass and stainless steel grommets, washers, snap sets and attaching machinery are the marine industry professional's top fastening solutions worldwide. As an ISO 9001 certified company, you can trust that Stimpson's products meet or exceed industry standards.

Since 1852, Stimpson continues to provide quality products and trusted fastening solutions for the entire marine industry. You can rely on Stimpson for industry-leading customer service, the highest quality marine fastening solutions and on-time delivery. View the Stimpson product guide or shop online for all of your marine fastening solutions.
