Strataglass LLC

Superior flexible marine windows

Strataglass LLC, a subsidiary of Herculite Products Inc., has been the leading manufacturer of pressed polished clear vinyl sheets for marine enclosures and flexible window applications for more than 26 years. Its two core products, Strataglass® and CrystalClear are used by an extensive list of OEM suppliers and boat builders such as Viking Yachts, Riviera Yachts, Grady White and Sea Ray.

Strataglass is a premium flexible coated vinyl sheet engineered to resist scratching and damaging effects from UV rays. Strataglass features VueShield™, a highly engineered scratch-resistant coating technology that is effective at blocking 94% of the UV light spectrum. It also features a two-year “No Worries” warranty against degradation and product failure.

CrystalClear offers the same quality that our customers have come to expect in an uncoated sheet. These press-polished clear vinyl sheets feature a new and improved clarity with no hazy blueness, no fish-eye effects, no dimples and no distortions. CrystalClear is available in 30 and 40 mil.

Both Strataglass and CrystalClear are available worldwide through our distribution partners.
